

SR-177 in Weber County: route options on the record

Adopted corridor, current UDOT study, reported alternatives, and historical options — with existing roads. As of Sept 27, 2026.

- Legend**
- Existing SR-177 (West Davis Hwy)
 - Under construction: SR-193 → 1800 N (2026–29)
 - Current UDOT State Environmental Study segment
 - Adopted long-range corridor, funded RTP phases (WFRC 2023–2050 RTP; Weber Co. preserved corridor)
 - Adopted corridor, unfunded in RTP (900 S → I-15)
 - HDR working-map study area “SR177 Phase 4” (unofficial consultant GIS, Aug–Sep 2026)
 - 8300 W freeway-loop corridor (Weber Co. plan), approx.
 - Westbridge Meadows freeway-parcel requirement
 - Historical options, dropped or rejected (approx.)
 - State wildlife areas & conservation easements (DWR)
 - ...portions inside HDR's study buffer
 - Weber River
 - Interstate
 - State / U.S. highways
 - Major local roads
 - Local roads
 - Railroads
 - Transmission lines (138–345 kV)
 - City limits
 - County line

Key 2026 events

Mar 3	Weber Co. told UDOT Region 1 prefers an “eastern alignment” north of West Haven
Mar 4	West Haven told UDOT has “settled on” 5100 W (study segment)
Jun 29	County approves letter: keep the freeway west of the Weber River
Aug 4	County staff show an alternative around state land & wetlands
Aug 24-Sep 8	HDR “SR-177 Level 2 Screening” map, “Phase 4” study area
Fall	Draft State Environmental Study expected (1800 N → 4000 S)

How to read this map

- South of 4000 S, every current source puts SR-177 on 5100 W.
- North of 4000 S there is no UDOT-approved line. The blue line is the regional plan / county-preserved corridor. UDOT Region 1 reportedly prefers an “eastern” alignment; Weber County is pushing to keep it west of the Weber River. Neither alternative has been published.
- “Approx.” lines were redrawn by hand from study text or county maps.
- In West Warren (≈900 S–900 N) the 2009 study left open an 800-ft shift from ≈6500 W to ≈6300 W; the plan line already runs near 6300 W.

Sources

Roads, city & county limits, NHD rivers/lakes, railroads, transmission lines: Utah Geospatial Resource Center (UGRC), retrieved Sep 27 2026. Adopted corridor + phases: WFRC 2023–2050 RTP Roadway Projects layer. Study area & buffer-clipped wildlife areas: public HDR ArcGIS items (Aug–Sep 2026). Full wildlife-area boundaries: Utah DWR. Positions & quotes: Weber Co. Commission & Planning Commission minutes (Mar 3, Jun 29, Aug 4 2026); West Haven minutes (Mar 4 2026); North Legacy Supplemental Study (2009); Weber Co. 2021 corridor map; Western Weber General Plan (2024); West Davis Corridor FEIS (2017). CONCEPTUAL RESEARCH EXHIBIT — not an official alignment, right-of-way, or parcel map. Do not use for property decisions.

HDR working map: “SR177 Phase 4” study area (“SR-177 Level 2 Screening” web map, Aug 24 – Sep 8 2026). 4000 S north to Willard. Unofficial consultant GIS; no route lines shown.

8300 W corridor (Weber Co. general plan): preserve ≥270 ft for a possible freeway loop to/from SR-177 (approx.)

Weber County Commission, Jun 29 2026: letter to UDOT & state officials to keep the “West Weber freeway” WEST of the Weber River

Westbridge Meadows (≈1400 S, 7500 W): 300-ft “West Weber Corridor” freeway parcel required; exact spot to be set with UDOT

County planner, Aug 4 2026: the 2009 line near 2550 S crosses federally funded state land & wetlands; staff drew an alternative that curves around them (not published)

Adopted line leaves 5100 W at about 3000–3300 S, then curves northwest across the Weber River (WFRC 2023–2050 RTP; Weber Co. 2009 study & 2021 map)

HISTORICAL: West Davis EIS preliminary Alt 12A, 6500 W through Hooper (dropped by 2017; approx.)

CURRENT UDOT STUDY (State Environmental Study): 1800 N (West Point) → ~4000 S (West Haven) on 5100 W. West Haven minutes, Mar 4 2026: UDOT “settled on an alignment on 5100 W” with the existing road as a frontage road. Draft study expected fall 2026.
